

BECOME A COASTAL ROOTS FARM CORPORATE PARTNER

Join Our Impact

Our regenerative and organic farming practices enhance soil health and fight against climate change.

Since inception, we have diverted more than 6 million pounds of waste from the landfill.

Each year we provide 80,000 pounds of food to low-income seniors and families, active-duty military and veterans, immigrants, Holocaust survivors, and home-bound, elder Native American tribal families.

The majority of our harvest is donated to people in need.

Our Farm-based Environmental STEM curriculum provides nearly 10,000 youth with hands-on opportunities to connect with nature, gain understanding of where food comes from, and become climate activists. More than half receive scholarship to participate.

We use farming and food to teach about Jewish tradition, build community, and make the world a more just and sustainable place. We welcome people of all backgrounds to experience ancient Jewish agricultural practices.
