

SUMMER IS OUR SEASON OF HIGHEST IMPACT.

During this peak season, help us tend to our commitments to people and planet.

3 MONTHS REMAIN IN OUR FISCAL YEAR.

Help us cultivate the remaining \$200,000 to grow, feed, and nurture our land and community.

Between July and September, Coastal Roots Farm will:

This year the Farm will grow 80,000+ pounds of food using regenerative, climate-smart farming. Summer is our peak growing season! Your contribution ensures we can continue to sow our seeds.

Together, we can fight climate change with soil.

This year the Farm will feed 45,000+ people. The majority (75%) of our harvests are donated to community members in need. The summer season reaches the highest number of people. Your investment ensures we can meet this need.

Together, we can reduce food insecurity.

This year the Farm will reach 10,200+ youth with “cradle-to-career” environmental, STEM, and nutrition education and workforce development opportunities. More than half receive scholarship to attend. Your donation ensures access for all.

Together, we can inspire young nature lovers and climate activists!

HELP US CLOSE THE GAP TO ACHIEVE OUR GREATEST IMPACT!
